Asks Discontinuance Of Two L & N Trains

The Louisville and Nashville railroad has announced that it will ask the Interstate Commerce Commission to allow it to discontinue trains Numbers 9 and 11 between Pass Christian and New Orleans.

The number of commuters and occasional travelers using the trains dropped to an average of 45 in 1962, railroad officials said. In 1959, the railroad appealed to ICC to discontinue the commuter trains from Ocean Springs to New Orleans. After a hearing, the commission allowed the railroad to discontinue the part of the run from Ocean Springs to Pass Christian and told L&N to continue to operate the trains between Pass Christian and New Orleans for at least a year, giving the public an opportunity to demonstrate its willingness to use the service.

The L&N said that an average of 80 persons made the daily trips in 1959 and this has dropped to an average of 45 in 1962.

The railroad said that the fares collected do not cover the wages of the train crew.

In announcing the decision to appeal to the ICC for the discontinuance, the railroad said that the use of excellent highways along the coast by travelers using buses, the pools and individual automobiles.

NASA News..

The U. S. Army Corps of Engineers will open competitive bids at the district office in Mobile on November 27 for the construction of two water wells at the NASA Mississippi Test Operations in Hancock County, Mississippi. The Army Engineers are constructing the huge test complex for the Marshall Space Flight Center for ground testing stages and engines of the giant Saturn moon rocket.

The wells, which will provide potable water for domestic consumption and "fire" protection in the test stand and support facilities, will be approximately 1500 feet deep, gravel-walled, with an outer casing not less than 12 inches in diameter and a well screen 8 inches in diameter.

Army Engineers have called for bids for another big construction job at the Mississippi Test Operations, the sprawling facility being constructed in South Mississippi for the Marshall Space Flight Center's use in test firing on the ground rocket stages and engines of the Apollo manned lunar landing program. The Corps of Engineers is serving as NASA's real estate, engineering, design and construction agent at the new \$500,000,000 facility.

Bids will be opened on December 10 at the Corps' district office in Mobile for constructing the foundation substructure for a dual-position stand for test firing the Saturn V S-IC stage, the first stage of the moon rocket, which develops a thrust of 7,500,000 pounds.

Specifications call for the construction of a substructure about 378 feet long, 146 feet wide and 40 feet high, containing about 44,000 cubic yards of concrete and 4,700 tons of reinforcing steel; a waste drainage system; a power and equipment grounding system; and two high pressure industrial water transverse headers.

The structure will be placed in an excavation prepared and dewatered by the Greenhut Construction Company, Inc., of Pensacola, Florida, under a contract awarded by the Army Engineers last July.

PRESIDENT WATSON DEFENDS COMPANY ON RATE INVESTIGATION

In response to press inquiries concerning announcement by the Mississippi Public Service Commission of its proposed investigation of the electric rates charged by Mississippi Power Company, A. J. Watson, President of the company, made the following statement:

This order by the Mississippi Public Service Commission comes as a complete surprise to us. While I have not yet seen the Commission's order, the statement reported in the press that our rates are excessive will, I am sure, be found to be erroneous when we have an opportunity to present the facts.

"Through the years, our company has voluntarily made numerous rate reductions, even as recently as July this year.

"Our price for residential service is substantially below the National Average for such service.

"During the past five years, the average price received by Mississippi Power Company for residential service has come down approximately 15 percent. This is in spite of continually increasing costs in every element of our operations including labor, material, and taxes. Similarly, our commercial and industrial rates have proven sufficiently attractive to help bring many new industries and service establishments into the area. We have, in this same five year period, added more than 52 million dollars to our investment in additional new physical facilities in southeast Mississippi.

"I feel that our company has been a major factor in the civic, industrial, and general economic development of Mississippi and the South, and we expect to play an even greater role in the future."

TURKEY DINNER OLG CAFETERIA

Our Lady of the Gulf Altar Society will have its annual turkey dinner Sunday, November 24, from 11 a. m. to 2 p. m. in Our Lady of the Gulf School Cafeteria.

For tickets contact Mrs. E. P. Larroux at 7-6108. Mrs. Stella Gex is general chairman of the dinner.

NAMED ON NOMINATING COMMITTEE

Tax Assessor George Heitzmann was named on the nominating committee and the Legislative committee for the coming year at last week's tax assessor's conference in Jackson.

Mr. Heitzmann, who was on the speaker's program, told how NASA has affected the county.

NEW LAW

Tax Assessor George Heitzmann stated this week the law requires that all new homes constructed during the year should be reported to the tax assessor. He is requesting all people in the county who have built new homes during the year to report them not later than April 1.

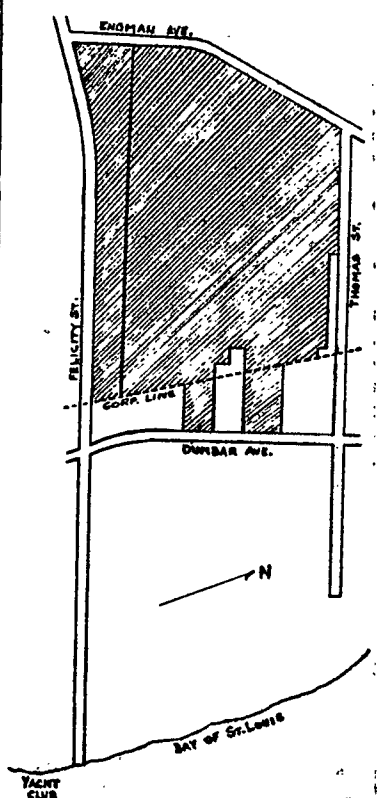

All eligible for homestead exemption should file beginning January 1.

Specifications call for the construction of a substructure about 378 feet long, 146 feet wide and 40 feet high, containing about 44,000 cubic yards of concrete and 4,700 tons of reinforcing steel; a waste drainage system; a power and equipment grounding system; and two high pressure industrial water transverse headers.

The structure will be placed in an excavation prepared and dewatered by the Greenhut Construction Company, Inc., of Pensacola, Florida, under a contract awarded by the Army Engineers last July.

LARGE TRACT TO BE DEVELOPED TO INVEST MILLION

Announcement was made this week by Allen H. Johnson, Jr., president of Johnson Realty Co., Inc., of plans for the development of a tract of land at Bay St. Louis.

The property consisting of 137 acres of land, will be subdivided into 420 residential and apartment sites, averaging 90' x 150' in dimension. It is bounded by Dunbar Avenue, Felicity Street, Engman Avenue and Thomas Street.

All streets and boulevards will be paved, and complete utilities will be installed.

The tract of land was purchased from Johnson Realty Co., Inc., by the Seivique interests of Mississippi for \$382,000.00. When the development is completed an investment of approximately \$1,000,000.00 is anticipated. Construction of utilities is expected to commence within sixty days.

HOSPITAL BOARD MAINTENANCE COMMITTEE

Hubert Thigpen, Peck Mauffray, Clifton Saucier and John Rutherford Jr., were appointed to the building and maintenance committee at Tuesday's monthly meeting of the Hancock General Hospital board.

Other committee appointments were Joe Duckworth, Clifton Saucier and Peck Mauffray, charity and joint conference, and Cornelius Ladner, Duckworth, Mauffray and Rutherford, executive and finance.

A financial report by the new treasurer, John Rutherford, showed collections for October as \$31,164.97 and expenses \$29,763.00. The hospital averaged 26.5 patients per day with the highest daily census at 32 compared to 37 last month.

Duckworth discussed the possibilities of a county hospital farm which will be looked into further.

TURKEY DINNER

The annual turkey dinner sponsored by Our Lady of the Gulf Altar Society will be held from 11 a. m. to 2 p. m. Sunday, November 24, in Our Lady of the Gulf School Cafeteria with Mrs. Stella Gex as general chairman.

Tickets at \$1 per plate are available by calling Mrs. E. P. Larroux, ticket chairman, at HO-7-6108.

A man and a child were killed and four other persons injured Sunday night when an automobile sideswiped a tractor-trailer on U. S. Highway 90 two miles west of Bay St. Louis. All the victims were Negroes, the Mississippi Highway Patrol said.

Harold N. Antoine, 37, 157 North St., Pass Christian, driver of the car, and three-year-old Leon Vince Jr., of the same address were pronounced dead on arrival at Hancock County General Hospital, State Ptn. Frank Blanton said.

The injured, admitted to Gulfport Memorial Hospital, were identified as Helen Vince, 22, Pass Christian, severe lacerations and possible internal injuries; Willie James Mays, 20, Gulfport, fractured left elbow; Walter Roman, 32, Pass Christian, fractured ribs and severe laceration of forehead; and Evert Cook, 35, Pass Christian, fractured neck, body abrasions, severe lacerations of forehead and chin.

A hospital spokesman said the Vince woman is in fair condition today. The others were reported in fairly good condition.

Patrolman Blanton said all were occupants of the Antoine car which collided with a tractor-trailer driven by Oliver Floyd McCard, 3205 E. Mohawk, Tampa, Fla.

The car traveling north on Highway 90 at an apparently high rate of speed, Blanton said and sideswiped the front end of the west-bound truck.

The impact demolished the left side of the car and spun it in a wide circle, Blanton said. One wheel of the truck was damaged.

Bodies of Antoine and the child were removed to the Bayless Funeral Home in Piquette.

Fleas-Flies Nov. 24th

The 47th annual Flea and Fly football classic will be held Sunday, November 24, at Stanislaus stadium.

A parade will form at Stanislaus and proceed to the stadium where the king, queen and their court will be presented at 2 o'clock prior to the game.

A king and queen will be selected from the boy and girl who brings in the largest returns from the sale of tickets. In order to qualify for maids and dukes, a minimum of \$5 of tickets will have to be sold.

Tickets are available from Joseph Benvenuti, chairman, Mrs. Curtis Matherne or Mrs. Gustave Thomas.

Returns must be in by 4 p. m. Thursday, November 21, at "the desert."

The program is sponsored jointly by the Knights of Columbus and the Brothers of the Sacred Heart for the Priests education fund.

HANCOCK COUNTY BAND DRIVE

Sunday, November 17, 1963, 2:00 P. M. marks the beginning of a massive county-wide drive launched by the Valena C. Jones P. T. A. for the purpose of purchasing uniforms and instruments for the band.

The program, planned by a special committee, will be interesting and informative.

All parents, patrons, and friends are cordially invited to attend.

Committee Suggests Program For 1964

Pursuant to a request made by the members of the Board of Directors of the Hancock County Chamber of Commerce at their October, 1963 meeting the President of this organization was requested to appoint a committee to recommend to the incoming Board of Directors a plan of action, or more specifically, a suggested program for the year 1964.

The committee appointed by the President was composed of the following members of the Chamber of Commerce: Mr. O. W. Delph, Mr. George DiBenedetto, Dr. B. L. Ramsey, and Mr. T. T. Robin. The recommendations of this committee are as follows:

1. More direct membership participation in the affairs of the Chamber. This could be done by encouraging the rank and file membership to attend monthly meetings. While these members have no voting power under the existing by-laws, it should be understood by them that their ideas, suggestions, and recommendations would be given every possible consideration. The membership should be named to committees on which they are willing to serve and they should be named to help on specific projects or programs.

2. Committees should be appointed from among the general membership and it should be the duty of the President and members of the Board of Directors to see that these committees carry out their programs or projects in a satisfactory manner. Recommended committees include: (a) Membership; (b) Civic Improvements; (c) Governmental Affairs; (d) Public Relations; (e) Sports; (f) Youth Activities; (g) Programs; and (h) Arrangements.

3. Specific programs for specific months during each year should be a matter of policy for the Chamber. For instance, the month of May could be designated as "Clean-Up, Fix-Up, Paint-Up" month. The month of January could be set aside as "Request for Ideas" Month. This could be accomplished by the use of questionnaires mailed to the general membership. Or, a general meeting of the membership could be called for the sole purpose of arousing membership interest in the organization. Refreshments could be served at this meeting in order to create a more relaxed atmosphere.

4. On community-wide civic improvements projects, it was recommended that an attempt be made to seek cooperation of other organization groups within the community. A coordinating committee within the Chamber of Commerce could achieve such a result.

This was proven by the BAWV vote on the Industrial Enameling plant in 1961.

5. In the matter of governmental affairs, the committee feels that the Chamber of Commerce with-out becoming involved in partisan politics should take a more positive stand on issues involving the welfare of the community. Government whether by legislative bodies, city councils, or county Boards of Supervisors, determines the climate that either fosters or hinders economic growth. As an example of a positive stand on a local issue, it may be pointed out that only within the last few days the Gulfport Chamber of Com-

merce went on record as being opposed to granting ad valorem tax exemptions "to any establishment other than bona fide new industries or for the expansion of existing industries."

6. Finally, the committee did not consider favorably the employment of a full-time paid manager of the Chamber of Commerce. The committee felt that the community is at the present time not ready for such an expenditure of funds which would be financed out of the pockets of the local merchants. While it did admit that some business men would not object to an increase in membership dues necessary for the hiring of such an employee, the committee did agree that any appreciable increase in yearly membership cost at this time would force many out of the organization who now find it practicable to continue as members.

The committee realizes that the recommendations made herein but barely scratch the surface of all that could be covered in such a report. A more inclusive report would require more time and study than is possible in only one meeting of any committee. However, the committee hopes that the ideas set forth herein and the recommendations made may create a favorable chain reaction among the membership of the Hancock County Chamber of Commerce.

The committee expresses its appreciation at having been called upon to make such a report and it is hoped that some good may result from what has been herein presented for your consideration. Respectfully submitted for the Committee.

A Christmas box will be to a 10 year old orphan at Natchez orphanage.

Mrs. Bernard Farney was chairman of the committee to name a new January meeting.

It was announced a rummage sale will be held from 1 p. m. to 5 p. m. November 17 at the corner of Necaise Avenue.

The Rt. Rev. Mar. Hannon spoke on the topic of the Altar Society.

He asked all members to bring a contribution of \$1.00 each month and to bring monthly Holy Hour.

Hostesses for the rummage sale were Mesdames Stella and Douglas Bourgeois.

AVERAGE NUMBER OF
PASSENGERS DAILY

Lack of interest on the part of the traveling public in using the Louisville and Nashville Railroad's commuter trains Nos. 9 and 12 between Pass Christian and New Orleans has been clearly demonstrated.

In 1953 an average of 105 persons made the round trip which was operated daily except Saturdays and Sundays. By 1956 the average had dropped to 82. In 1959, with the downward trend continuing to the point that the railroad was losing a substantial amount of money by running these trains, an appeal was made to the Interstate Commerce Commission, which allowed the L&N to discontinue the part of the run from Ocean Springs to Pass Christian.

The Commission then told L&N it should continue to operate the trains between Pass Christian and New Orleans for at least a year and said that during this period the public would have ample opportunity to demonstrate its willingness to use the service.

The record shows that from an average of 80 persons who made the daily trips in 1959, the number of commuters and occasional travelers dropped to an average of 45 in 1962.

FARES COLLECTED DO NOT COVER THE WAGES OF THE TRAIN CREWS ALONE.

When the L&N started providing commuter service to New Orleans in 1881 there were no roads or other means of transportation, but entirely different conditions exist today. Excellent highways along the Gulf Coast are used by buses and by commuters traveling in car pools, as well as by individuals who drive their own automobiles. Because of the preference, practically expressed, of those who use the highways, patronage of the trains has dropped steadily in spite of substantial increases in population of the area served.

Therefore, after a testing period of four years, rather than the one year proposed by the Interstate Commerce Commission, the L&N has decided that it must go back to the Commission and ask approval to discontinue trains Nos. 9 and 12.

It is L&N's hope that the people of the area will recognize the reasonableness of our position to give up a service, the public use of which already has been discontinued.

AMAZED.

I tell a few war stories — just like the rest. The censorship of good taste and modesty makes my experiences pretty drab. But Jerry thrills to them. He's proud of his Dad's Purple Heart!

My son would be amazed if I were to tell him the stories we never tell; our thoughts as we hit the beach... what it was like in those jungles... what war does to its dead... and its living.

And in other ways Jerry would be amazed; for he doesn't know me as a man who prays often. He can't realize the depth of my Faith. He has never met the brave chaplain who brought me in when I was hit.

I'll never tell Jerry all of it. I don't think God wants me to!

I pray that Jerry's may be a different world. I want him to learn day by day, step by step, what his religion will mean to him!

That's why we're a church-going family!

Tiny Pecan Pies are a Four-Flavor Hit

A great way to make an impressive dessert is with this recipe for miniature pecan pies. You can stick to the basic pecan mixture, but more fun is to add a bit of this or that for a variety of pies, such as Pineapple Pecan Pie, Fruit Pecan Pie and Chocolate Pecan Pie, then let guests choose one of each or the one that appeals most.

Miniature Pecan Pies
Pastry for 2 crust pie 1/2 teaspoon vanilla
2 eggs, slightly beaten 1/2 cup sugar
1/2 cup dark corn syrup 1/2 cup finely chopped pecana
1/2 teaspoon salt

Mix pastry; roll to 1/4 inch thickness on lightly floured board. Cut into 3 1/2 inch circles and use to line 24 individual tart shells or muffin pans (2 inches x 1 inch). Flute edges as desired.

Mix eggs, corn syrup, salt, vanilla and sugar together. Stir in pecans. Spoon about 1 tablespoonful into each unbaked shell. Bake in 400 degree F. (hot) oven 25 to 30 minutes. Remove from pans and cool on rack. Makes 24.

Pineapple Pecan Pies: Follow recipe for Pecan Pies, lining 32 shells with pastry, placing a scant teaspoon drained crushed pineapple in each and then covering pineapple with 1 teaspoon pecan filling. Makes 32.

Fruit Pecan Pies: Follow recipe for Pecan Pies, lining 32 shells with pastry, placing a scant teaspoon chopped candied fruit in each and then covering fruit with 2 teaspoons pecan filling. Makes 32.

Chocolate Pecan Pies: Follow recipe for Pecan Pies, lining 32 shells with pastry and adding 1/4 cup fortified chocolate flavored syrup to pecan filling. Makes 32.

Worms can be purchased at most all fishing tackle places and are excellent for catching perch and green trout. They are wriggly but good.

PROTESTANTS LAUNCH TENTH ANNUAL APPEAL FOR WORLD'S HUNGRY

NEW YORK, N. Y. - A decade of annual Thanksgiving appeals by Protestant denominations for funds to carry on their joint program of food distribution to the world's needy will be marked Sunday (November 24) in churches throughout America.

Highlighting nationwide services dedicated to the appeal, which seeks \$950,000 for financing the SOS (Share Our Substance) program for 1968, through which more than 10 million of the world's hungry will receive life-sustaining U. S. food stocks, will be the National Service of Thanksgiving at the Washington Cathedral in Washington, D. C. at 3:30 p. m. Sunday (November 24).

The service is sponsored annually by the Council of churches of greater Washington, and Church World Service, the overseas relief and rehabilitation agency of major Protestant denominations.

Bishop James K. Mathews of the Boston Area of the Methodist Church, who has just returned from a field trip to Africa, will be the principal speaker at the Washington Cathedral service. He will discuss problems of world hunger.

The Harvard-Radcliffe Glee Clubs will sing under the direction of Conductor Elliott Forbes.

Since its inception the SOS program has accounted for distribution of approximately two and a half billion pounds of U. S. Government-donated commodities to the hungry and destitute in more than 35 areas of acute need.

Church World Service is a department of the National Council of Churches of Christ, and cooperate with the Division of Inter-Church Aid, Refugee and World Service of the World Council of Churches in its international programs.

The score came on the first play following the punt. Wells sent his kick through the uprights to widen the gap to 27-0.

Reserve quarterback Tommy Gill got the fifth Tiger touchdown in the third quarter on a one-yard plunge with 3:20 left in the quarter. Wells' kick made it 34-0.

Stanislaus made its lone appearance in the touchdown column on the first play of the fourth quarter with Doc Rhodes bucking over from the one to cap a 58-yard march.

Moss Point added the final crusher with 18 seconds remaining in the game as quarterback John Hassell sneaked over from the one. Wells' kick was good and the scoring ended at 41-6 for Moss Point.

A do-it-yourself retirement plan that really works

Just a few pennies a day invested now in U.S. Savings Bonds can help you build security for the future.

Here's a retirement plan you can set up yourself, administer, yourself with no fees or expenses, and go into with absolute confidence.

Start with Series E Bonds

You begin by buying E Bonds where you bank, or automatically on the Payroll Savings Plan where you work. When you hold them for 17 years, 9 months, you get almost double your money back—\$1.93 for every \$1 invested.

When you retire, you can exchange your E Bonds for H Bonds. H Bonds pay interest to you semi-annually in cash—at 3.75% when held to maturity. There's no charge for trading. And the interest you accumulated before the trade is not taxed to you until you cash in your H Bonds.

A riskless plan

A U.S. Savings Bonds retirement plan is completely without risk. Your money keeps on growing, guaranteed by the Government. You can get it anytime you want - with interest. And if your Bonds are ever lost or destroyed, the Treasury replaces them free.

Why not look into this plan today?

NEW MISSISSIPPI LIBRARY KIT DELIVERED HERE - For the first time in history, students and researchers desiring to do background study on Mississippi, or write themes and other reports on the state, can find all major information under one cover, in the new "Let's Talk Mississippi" Library Kit delivered last week. Libraries in this area receiving

the kit are: City-County Memorial Library, Bay St. Louis High School, St. Joseph Academy, St. Stanislaus, of Bay St. Louis.

Shown above examining one of the new kits are, from left: E. G. Spivey, Jackson, chairman of the Mississippi Economic Council committee in charge of the project; Miss Mary Love, associate director of the Mississippi Library

Commission; and A. P. Bennett, director of the division of instruction, State Department of Education. Mr. Spivey said 575 copies of the kit, containing information from 19 state agencies, were sent to public and school libraries. Also included in the kit is a copy of the MEC's "Let's Talk Mississippi" book. No other copies of the kit are currently available.

GREYHOUNDS DEFEAT BAY HIGH, 7-6

The Ocean Springs Greyhounds won the Gulf Coast Conference football crown Friday night at Freedom Field in Ocean Springs by defeating the Bay High Tigers 7-6.

Ocean Springs scored the game's first touchdown with 25 seconds remaining in the first half when quarterback David Beaugez threw a one-yard touchdown pass to halfback Rickey Davis.

The touchdown drive covered 55 yards and was accomplished mainly on the strength of passes.

Beaugez kicked the all-important extra point and Ocean Springs led 7-0 at the half.

No further scoring transpired until Bay High struck for its score with 35 seconds left in the game on a 15-yard pass from quarterback Leroy Luke to halfback Mike Strong.

The touchdown climaxed a 91-yard drive started in the final four minutes.

Bay High attempted to kick the extra point, but the ball sailed wide to the right of the goal posts, and Ocean Springs had the game and the conference title.

Earlier in the fourth quarter Ocean Springs moved to the Bay High one, only to be held on downs at that point. The opportunity came when Rickey Davis intercepted a Bay High pass and raced to the 15-yard line before being stopped.

No other threats materialized in the contest.

Ocean Springs finished the season with 10 victories in as many starts and is a prime candidate for post-season bowl consideration.

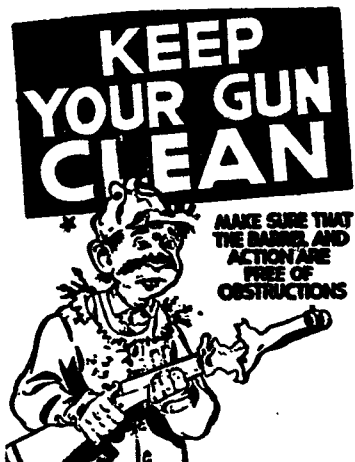

Bay High ended its season with eight wins, one loss and one tie. Bay High was the defending conference champion.

BULLS TESTED IN FEEDLOTS PROVE VALUE AS SIRES

STATE COLLEGE - Bulls that gained well in feedlot performance tests produced better calves than non-tested bulls in extensive tests made by the Mississippi Agricultural Experiment Station.

J. C. Taylor, Mississippi State University animal husbandman, compared three performance tested bulls with three purebred bulls selected for type alone with no regard for gaining ability.

The bulls were mated to cows of similar age and genetic background. Calves were not creep-fed; cows were rotated from pasture to pasture during the grazing season to eliminate difference due to forage. These precautions were taken so that any difference in the performance of calves would be a direct reflection of the effect of the sires. The first five steers born in each bull unit were selected to be fattened in the feedlot.

At weaning, calves from the performance tested bulls had a daily gain advantage of 0.7 pound over the others and were 18 pounds heavier in the feedlot, calves from tested bulls gained 34 pound per day faster than the other group and were 65 pounds heavier at the end of the feeding period.

When the steers were sold there was an average advantage of \$29 per steer for those sired by tested bulls.

"Profits from beef cattle can be increased by selecting performance tested bulls that have superior gaining ability," Mr. Taylor said. "The fact that a bull has been performance tested does not always mean he will sire fast-growing calves. The bull should be above average in his gaining ability before being considered as a sire. Also this does not mean that a non-tested bull will not sire fast gaining calves. The fact that there is no previous knowledge of the bull's gaining ability simply increases the gamble."

HOSTESSES WITH THE MOSTEST

High-flying Braniff Airlines Jet Hostesses have a magic carpet for the future U. S. Savings Bonds. A recent Bond Drive ended with 91 per cent of the Braniff hostesses signed up for Payroll Savings, to help their company win top honors in employee participation in the air transportation industry.

The campaign was part of an industry-wide Payroll Savings drive headed by C. E. Woolman, President of Delta Air Lines, whose company achieved second-highest participation in the air transportation industry.

Twenty-seven other major industries participated in the nationwide Payroll Savings effort, which to date has resulted in more than one million new savers signed up. Each drive was organized and directed by a top industry leader as a member of the Treasury's U. S. Industrial Payroll Savings Committee. Treasury Secretary Douglas Dillon appointed the committee, with Harold S. Geneen, President of the International Telephone and Telegraph Corporation, as chairman, and outlined its assignment at a special Washington meeting in January.

Among the one million new savers, the ladies pictured above can safely be considered among the prettiest. They are, left to right: Janice Kremers, Ft. Smith, Ark.; Beverly Barkman, Richmond, Va.; Barbara Clark, Memphis, Tenn.; Desaine Hensley, San Antonio, Tex.; Kay Wallace, Dallas, Tex.; Karen Christian, St. Paul, Minn.; Jeannie Klees, St. Paul, Minn.; and Lucille Nielson, Salem, Ore.

"CAREERS IN RETAILING" SUBJECT OF TALK TO HNC STUDENTS

"CAN'T shouldn't be in a teenager's vocabulary," S. Grady Thigpen, Jr., told the students of Hancock North Central School. "A little effort applied in the right direction makes most things possible and brings about a certain pride and accomplishment in the success obtained."

Mr. Thigpen, speaking on "Careers in Retailing," recounted the story of his father, in establishing one of the largest retail hardware, house furnishings, and building materials stores in south Mississippi. His father worked his way through Miss. State, taught school for 6 years in Poplarville, and then, in 1918, opened his store where he sold wagons and wood stoves. Six years later he started publishing his "Store News," primarily to advertise his own merchandise. Later, he included the ads of other members of the community at no charge to them. The "News" gained in popularity and circulation. A copy came to the attention of George Matthews Adams, who used in as the subject of one of his columns, commenting, "If someone tries to help another, he so helps himself."

Basic points for the businessman to remember are, you must service what you sell; you must advertise; you must stay open; you must assume community responsibilities by working with and for the schools, churches, politics, and progress; you must take care of your health; and DON'T COMPLAIN.

Mr. Thigpen graduated from the School of Business Administration of Tulane University in 1947; he also graduated from Piquette Memorial High School.

prosthetic devices.

In order to encourage disabled beneficiaries to make the effort to regain their independence and return to gainful employment, the law provides for a trial work period of as much as a year, during which the beneficiary's full benefits are continued.

If benefits are discontinued because the claimant is found able to work and later on again becomes unable to work, benefits can be resumed immediately if the second period of disability is within 5 years of the end of the first period.

In many instances disabled persons will, after undergoing a period of rehabilitation, be able to engage in only part-time activities. Whether the social security payments will be continued after such partial rehabilitation depends entirely on all the facts in the individual case.

Information on this and other provisions of the disability program may be obtained from any social security office. The office is located at 1022 32nd Avenue, Gulfport, Mississippi.

SIX FATALITIES AND 39 INJURIES DURING MONTH

Six fatalities and 39 injuries resulted from October traffic accidents in Mississippi Coast counties, according to a monthly report by District Eight Inspector Marion E. Fuks of the Mississippi Highway Patrol at Gulfport. The report said the 84 accidents investigated involved 181 vehicles and caused an estimated \$47,380 in property damage.

Two of the fatalities occurred in Mississippi on city streets. The traffic toll was lower than September, when ten persons died and 57 were injured in 105 accidents involving 188 vehicles and causing \$54,410 in property damage.

A year ago, in October, the toll was three fatalities and 26 injuries in 58 accidents involving 109 vehicles and \$28,305 in property damage.

Jackson County topped the list this October with three deaths and 13 injuries. The county had 24 traffic accidents involving 44 vehicles and \$18,205 in property damage. Harrison County had more traffic accidents, 34 involving 68 vehicles and \$19,710 property damage, but a lower toll in personal injuries - two deaths and nine injured.

The record in other District Eight counties follows: Hancock, four injuries, nine accidents, 20 vehicles, \$3,725 property damage; Pearl River, one death, seven injuries, seven accidents, 12 vehicles, \$2,885 property damage; George, six injuries, seven accidents, 11 vehicles, \$2,175 property damage; Stone, three accidents, six vehicles, \$660 property damage.

Failure to yield right-of-way, reckless driving and following too close were listed as the major accident causes.

The report showed district patrol units issued 431 tickets for hazard violations; 618 tickets for non-hazard violations; checked 17,120 drivers licenses; assisted 690 motorists; carried out 42 special details; and patrolled 90,958 miles of highway.

COTTON QUOTAS UP FOR VOTE DECEMBER 10

The cotton quota vote coming up on December 10 will mark the eleventh consecutive year in which growers have voted on marketing quotas for their upland cotton crop. Paul E. Bonita, Chairman of the Hancock Agricultural Stabilization and Conservation County Committee, said today.

"Beginning with the referendum on marketing quotas for the 1964 crop, growers have approved quotas for each year's cotton crop," he stated. "In the vote last year on quotas for the 1963 upland cotton crop, 93.7 percent of the growers voting approved the quotas."

By law, quotas must be proclaimed by the Secretary of Agriculture in years when the cotton supply exceeds normal. The estimated 1963-64 total supply of upland cotton exceeds the estimated normal supply by 7.8 million bales.

For 1964, the chairman explained, Hancock County has a total of 25.0 acres available for allotment to growers on which to grow their upland cotton crop. This represents the county's share of the national allotment acreage of 16,200,000 acres, which includes 200,000 acres from the national acreage reserve to take care of minimum farm allotments. Notices of individual farm acreage allotments will be mailed to operators of cotton farms in advance of the December 10 referendum.

If at least two-thirds of the growers voting in the referendum approve quotas for the 1964 upland cotton crop, price support at a level within the range of 85 to 90 percent of parity will be available to growers who comply with their farm allotments, and marketing quota penalties will apply to any "excess" cotton produced on a farm.

If more than one-third of the voters oppose quotas for the 1964 crop, the allotment program will remain in effect, and price support will be available to cooperators at 50 percent of parity, as provided by law.

All farmers who engaged in the production of upland cotton in 1963 are eligible to vote in the December 10 referendum.

\$13 MILLION FOR FIRST SATURN V TEST STAND

GAINESVILLE, Miss. - A contract for \$13,391,872 for construction of the first test stand for the second stage of the Saturn V Apollo Moon Rocket at NASA's Mississippi Test Operations was awarded today.

The contract was awarded to the joint venture of C. H. Leavell and Company, and Peter Klewitt Sons' Company, El Paso, Texas. This will be the first test stand constructed at MTO, a facility of the George C. Marshall Space Flight Center, Huntsville, Ala.

It is also the largest construction project to be awarded for the facility thus far.

Award of the contract was made by the U. S. Army Corps of Engineers, Mobile District, which serves as construction agent for NASA. Mississippi Test Operations, a 141,000-acre site in the southwestern part of the state, is being built to static test fire both the first and second stages of Saturn V, the rocket now under development by the Marshall Center to land Americans on the moon by the end of this decade. The first S-II rocket is expected to be tested in mid-1965.

The test stand will be a concrete structure about 127 feet high and about 150 feet square at the base, surmounted by a structural steel tower about 58 feet high and containing about 500 tons of steel. It will include a single-position test stand, two steel instrumentation towers, two concrete bunkers to provide blast-protected direct-view observation posts, a blast-resistant test control center to house control equipment, instrumentation tunnels, extensive specialized utility systems, including high pressure distribution systems for air, gaseous helium, gaseous nitrogen, gaseous hydrogen, liquid

oxygen, docking facilities for test and rocket motor and wiring. The S-II second stage is being manufactured by North American Aviation, Inc., at Seal Beach, Calif. The million-pound Saturn V stages will be shipped by water through the Panama Canal to the Gulf of Mexico. To reach the test complex, the stages will be barged up the East Pearl River, lifted about 20 feet to the level of the test site by a navigation lock, and then delivered directly to the test stand by a way of a

Chamber Commerce Preside't Reviews Past Year's Work

May I begin by saying that during the past 12 months it has been my privilege to have worked with a group of gentlemen who have by their selection as members of the Board of Directors proved themselves to be among the outstanding men of our community. They have been most cooperative and have worked unselfishly on Chamber of Commerce activities. The efforts they have put forth during the past year should be appreciated by the entire community. My personal appreciation is extended to each and every member of the Board and to Mrs. Mabel Green, our Secretary-Manager, who has been most efficient in the performance of her duties.

A review of the minutes of the Chamber of Commerce for the past 12-month period discloses the following:

1. At the suggestion of the members of the Board of Directors ten committees were formed: Area Promotion Committee; Utilities Development Committee; Education Advancement Committee; Industrial Development and Transportation Committee; Recreational Development Committee; Area Health and Safety Committee; Real Estate Development Committee; Retail Sales Committee; Hospitality Committee; Ladies Committee; and Membership Committee.

2. The Board of Directors were responsible for the State Highway Department placing of "No Litter" signs along that section of U. S. Highway 90 which runs through the corporate limits of Bay St. Louis.

3. A recommendation was made to the Bay St. Louis City Council for the formation of a volunteer fire department.

4. The Board had printed and paid for at a cost of \$60.00 1,000 city maps for public distribution.

5. Board members attended numerous meetings with Highway Department officials and other Chambers of Commerce concerning the location of proposed Interstate Highway 10 which would be in the best interest of Hancock County.

6. Adopted a resolution favoring a more fair, a more just, and a more equitable re-districting of supervisors districts in Hancock County.

7. Paid for at a cost of \$160.00 and had erected a sign at the intersection of Highway 90 and North Beach which calls attention to Hancock County's being the home of Mississippi Test Operations, a facility of George C. Marshall Space Flight Center.

8. Made all necessary preparations for the handling of plans for groundbreaking ceremony at the Mississippi Test Operations

and for reception that was to follow the ceremony; the groundbreaking ceremonies and reception being both subsequently ruled out for the present time by officials of NASA.

9. Paid for and erected at a cost of \$50.00, 8 small directional signs placed at various points indicating location of the Chamber of Commerce office.

10. Met with representatives of the Bay-Waveland Garden Club for the two organizations to work together on a community clean-up campaign.

11. Paid for 25 metal containers to be placed in various places with signs for newcomers in the community to record names, addresses, and other pertinent information of value to various interests throughout the community.

12. Initiated the compilation of a Buyer's Guide, or Business Directory for businesses domiciled in Hancock County on which large scale distribution is planned, and

by means of which it is hoped that membership interest in the Chamber will be stimulated and also bring in additional operating revenue for the Chamber.

This is my report for the year of 1963. In closing I would like to make these observations: I believe that the Board of Directors should encourage criticism of themselves at all times and if it is found that such criticism is fair and reasonable then the Board should strive to eliminate whatever weakness there is within the organization. In this way we can become a more effective force within the community. Perhaps because of such criticism the Chamber of Commerce may adopt even more aggressive programs of action and more active participation in affairs that would improve business and build a better community.

It is my sincere hope that the new Board of Directors will begin the new year by giving serious thought to the recommendations of the Committee which were submitted here tonight for your consideration.

Respectfully submitted

Following the brief business session a social hour was enjoyed and refreshments were served by Mrs. Ziegler to the 12 members present.

LETTERS TO THE EDITOR

DEAR EDITOR

Mr. T. H. Naylor
Mr. A. P. Smith
P. O. Box 771
State Office Building
Jackson, Miss.

Dear Gentlemen:

The over crowded conditions of Gulfview School has given reason to request your presence at the school board meeting Saturday, November 16, at 9 A. M., at the Court House in Bay St. Louis, is the Superintendent of Education's office, and also to attend our school in session to look over the conditions here at your earliest convenience.

A group of interested parents attended the last school board meeting, and as yet we have not had very much satisfaction for our needs, and our needs are simply this:

We have an enrollment of over 200 pupils, our school consist of 8 Grades, for these 8 grades, we have 7 teachers, one of which was hired recently. One of these classes has to be in study hall at all times due to the shortage of a teacher. Our school has 6 classrooms. Due to the hiring of the additional teacher, we had no room to put this extra class.

They now have made a class room out of the front entrance of the hall. These pupils being 3rd graders have insufficient lighting, insufficient ventilation, and insufficient heating, plus the distractions of other students going to and from classes.

This condition alone is a deplorable one plus the dangers of this front entrance being closed in case of an emergency.

Our Social Studies teacher, who is also our Coach, not only has these duties to attend to, but, has to keep up with the athletic equipment and keep the rest rooms and gym clean, and besides all this, he must take all the dirty towels home and launder them for next P. E. class.

Our Principal is a teaching Principal, and since he has not even a part-time secretary, he must attend to all concerning his office, and try to keep our school running as a regular school, and teach 5 classes of math daily.

Right now we MUST have at least two (2) teachers. One to handle the class that is now having to be in study hall and one that could take over for the principal so that he may attend to the operations of our school. This would relieve our over-crowded situation for TODAY as far as teachers are concerned.

As we already have one class room operating in the hall, we have no additional space for the teachers and our enrollment is increasing so rapidly we must have at least six (6) additional classrooms to handle this situation.

We also feel that by next school term we will be in very great need of a High School at Gulfview.

We as parents feel that Gulfview is the only logical place at this time for plans of any kind to be made for a high school, since this area is centrally located and accessible for all surrounding areas.

We were told by the School Board that the building fund was exhausted, but we also see that much discussion and plans have been made towards a large school located in Pearlitting, which is right on the Louisiana border which certainly is not centrally located and where are the funds coming from to build this school???

The funds as we see it are to come from the sale of 10 town school and since all of our County Schools are supposed to be

operated on this money. It is needed. We men is without doubt at Gulfview our urgent needs will be in the future. We respect the fact that the school is located in an area, but certainly to handle these needs we must have a high school at this time for a high school. We are already having to cope with these conditions every day.

First things first. WE CANNOT WAIT. WE HAVE TEACHERS AND MUST HAVE CLASS NOW.

THE YOUTH OF TODAY ARE MISSING THE TION. TOMORROW WILL BE RUNNING OUR COUNTRY. "NUFF SAID"

Hancock North Central Sixth Grade 4-H Club held its monthly meeting Wednesday with June Garcia, president, presiding.

Plans were made for Christmas parties and appointments of the following committees were made:

Planning committee, Linda Peterson, Janice Shaw, Linda Hoda and Dolores Davis.

Recreation, Sandra Cuevas, Betty Sue Necaise, Cherrie James, Norma Jean Necaise, Carol Lewis.

Clean-up committee, Anne Carmer, Anne Reeves, Deborah Lader and Adele Hoda.

Barbara Moran, was appointed home improvement project leader; Charlotte Holden, foods and nutrition and Carol Lewis, publicity.

Professor Joseph Hemmersbach, organist, played the processional and recessional and a program of traditional music during the ceremony.

The bride, given in marriage by her father, wore a white peau de sole gown fashioned with a fitted bodice with a round neckline trimmed with Alencon lace re-embroidered in seed pearls. The sleeves ended in points over the hands. The skirt, which fell in pleats with a front panel of the re-embroidered lace formed a cathedral train. Her shoulder length veil of imported illusion was held in place by a tiara of orange blossoms, and she carried a bouquet of white carnations centered with a white orchid.

Mrs. James B. Perron of New Orleans, sister of the bride, served as matron of honor; and another sister, Miss Lillian Travira, was maid of honor. Miss Patricia Culley of Memphis, Tenn., the bride's cousin, was bridesmaid.

They wore street length dresses of glass green peau de sole fashioned on the same lines as the bride's dress. Their head pieces were matching bands with a circular veil. They wore glass green slippers and carried cascades of red tipped bronze mums.

Henry Wood Jr., of Meridian, Miss., was best man, and groomsmen were Waymon Carr, brother of the bride, and Granville Stewart, Meridian, brother-in-law of the groom. Bart Carr and James B. Perron served as ushers.

A reception followed at the home of the bride's parents on Blue Meadow Road.

The bride's table, covered with a white lace cloth over pink taffeta was centered with a five-tiered wedding cake decorated with pale pink roses topped with silver spun bells trimmed with a nosegay of white button mums centered with pale pink carnations. Silver candelabra holding white tapered were on either side.

The punch table overlaid with a pale pink taffeta and net cloth was decorated with pink carnations and fern.

Mrs. Travira assisted in receiving their guests wearing an ice blue brocade sheath with matching jacket, white hat and navy blue accessories.

The groom's mother wore a rose-hedge silk suit and matching accessories. They each wore a corsage of white cymbidium orchids.

Miss Cynthia Travira, sister of the bride, kept the bride's register.

After the bride and groom cut the first slice of cake it was served by her aunt, Mrs. W. W. Culley of Memphis, Tenn.

Misses Janet French and Inez Favre presided at the punch table.

Tea girls were Illona Marquez, and Marsha Culley.

For a wedding trip to Chattanooga, Tenn., the bride wore a three-piece green knit suit, green hat and brown patent accessories.

Mr. and Mrs. May will make their home in Pineville, Miss.

The groom, a graduate of Meridian High School, is presently employed as staff manager for Peoples Protective Insurance Company, Gulfport.

The bride, a graduate of St. Joseph Academy and Soule Business College, New Orleans, is associated with W. S. Moss Petroleum Consultants, Gulfport.

Out of town guests were Mr. and Mrs. May, Mr. and Mrs. Granville Stewart, Miss Jan May, Mr. and Mrs. Henry Wood, Mr. and Mrs. E. P. Welch, Meridian, Miss. Mrs. F. P. Wayne Geiger, Mr. and Mrs. W. S. NOTICE

The Board of Supervisors took up for consideration the matter of providing the additional sum of One Hundred Seventy-five Thousand Dollars (\$175,000) for the purpose of erecting and equipping an addition to and enlarging the public hospital of Hancock County, and after a discussion of the subject, Supervisor DEAN offered and moved the adoption of the following resolution:

RESOLUTION, DECLARING THE INTENTION OF THE BOARD OF SUPERVISORS OF HANCOCK COUNTY, MISSISSIPPI, TO ISSUE BONDS OF SAID COUNTY IN THE MAXIMUM PRINCIPAL AMOUNT OF ONE HUNDRED SEVENTY-FIVE THOUSAND DOLLARS (\$175,000) TO RAISE ADDITIONAL MONEY FOR THE PURPOSE OF ERECTING AND EQUIPPING AN ADDITION TO AND ENLARGING THE PUBLIC HOSPITAL OF SAID COUNTY, AND DIRECTING PUBLICATION OF NOTICE OF SUCH INTENTION.

WHEREAS, this Board of Supervisors does now find and determine that it is necessary and in the public interest to provide the sum of One Hundred Seventy-five Thousand Dollars (\$175,000) for the purpose of erecting and equipping an addition to and enlarging the public hospital of Hancock County, Mississippi; and

WHEREAS, this Board of Supervisors is authorized by the provisions of Chapter 241, Laws of Mississippi, 1960, as amended, to issue bonds for the aforesaid purpose, provided that such bonds, when added to all other bonded indebtedness of said County, shall not exceed ten per centum (10%) of the assessed valuation of taxable property within said County according to the last completed assessment for taxation; and

WHEREAS, this Board of Supervisors, having made due investigation, now finds and determines:

(a) That the assessed valuation of taxable property within said County of Hancock appearing on the assessment rolls as established by the last completed assessment for taxation preceding the date of this resolution, is as follows:

Real estate \$9,003,758
Personal property \$548,963
Motor vehicles \$1,071,723
Public utilities \$3,599,808

TOTAL \$14,224,252

(b) That the amount of outstanding bonded and floating indebtedness of said County at this time is SEVEN HUNDRED TWENTY-ONE THOUSAND FIVE HUNDRED (\$721,500); and

(c) That the amount of bonds now proposed to be issued, when added to the amount of outstanding indebtedness, as aforesaid, will not exceed ten per centum (10%) of the aforesaid assessed valuation; and

WHEREAS, this Board does now further find and determine that it is necessary and in the public interest that bonds of said County be issued as hereinafter set forth.

NOW, THEREFORE, Be it resolved by the Board of Supervisors of Hancock County, Mississippi, as follows:

SECTION 1. That the Board of Supervisors of Hancock County, Mississippi, hereby declares its intention to issue bonds of said County in the maximum principal amount of One Hundred Seventy-five Thousand Dollars (\$175,000) to raise money for the purpose of erecting and equipping an addition to and enlarging the public hospital of said County.

SECTION 2. That the said bonds in the amount and for the purpose aforesaid shall be issued at a meeting of said Board of Supervisors to be held on the 9th day of December, 1963, at the hour of 10 o'clock A. M. If twenty per centum (20%) of the qualified electors of the County shall file a written protest against the issuance of said bonds on or before the aforesaid date and hour, then an election on the question of the issuance of said bonds shall be called and held as provided by law. If no such protest be filed, then said bonds shall be issued without an election on the question of the issuance thereof.

SECTION 3. That this resolution shall be published once a week for at least three (3) consecutive weeks in the Hancock County Eagle, a newspaper published in Hancock County, Mississippi, and which is a qualified newspaper under the provisions of Chapter 427, Laws of Mississippi, 1948. The first publication of this resolution in said newspaper shall be made not less than twenty-one (21) days prior to the date aforesaid, and the last publication in said newspaper shall be made not more than seven (7) days prior to the date aforesaid.

SECTION 4. That the Clerk of this Board shall be and he is hereby directed to procure from the publisher of the aforesaid newspaper the customary proofs of the publication of this resolution and to have the same before this Board at its first meeting following the last of the aforesaid publications.

FLIGHT TO A FINISH

FRIDAY NIGHT ACCIDENT REPORTED

Personal injuries and property damage were reported by State Police on U. S. Highway 90 east of Pearlport Friday night.

The accident, the patrolman said, was caused by loose stock on the highway.

The driver of the car, Roger Keith Johnson of Spanish Fort, Ala., sustained cuts on the face and hands. Another occupant, identified as Sandy H. Johnson, received facial cuts.

Damage to the car was estimated at \$350.
